

Watercrafts, ATV's, and utility vehicles enable your department to respond to emergencies in all kinds of environments, from water rescues to offroad distress calls. When lives are on the line, you need this equipment to be quick to deploy and easy to transport. With CargoBuckle and BoatBuckle retractable ratcheting tie-downs, they are.

BoatBuckle®

Quick and easy to install with no tangled straps to lose or slow you down, BoatBuckle is there when you need it, and out of your way when you don't.

Features:

- Available for transom, bow, and gunwale applications
- Transom and bow models are perfect for brackish or saltwater environments
- Retractable ratchet tie-down
- Permanently or temporarily mounts to a trailer
- Dual release lever makes it easy for right or left hand release
- Available in 1-inch and 2-inch models
- Standard BoatBuckle holds up to 5,000 pounds/pair
- Stainless Steel models hold up to 3,000 pounds/pair

BoatBuckle is available through Bass Pro Shops, Amazon, Cabela's, Overton's, Etrailer.com, and other fine retailers. For more, visit IMMI Outdoors.com.

TIE-DOWNS

CargoBuckle®

Like our BoatBuckle brand, CargoBuckle is ready in an instant when you need it, and out of your way when you don't. Our retractable tie-down is so easy to use you simply hook, ratchet, and go!

Features:

- Anti-corrosive construction
- 6-foot reach with self-retracting web
- Available in 2-inch or 1-inch models
- Longer, stronger, and more durable than any other ratchet tie-down
- Permanently or temporarily mounts to a trailer
- Dual safety lock security
- Flush mount and ladder rack systems available

TESTIMONIALS

You don't have to take our word for it. Hear what some of our customers have to say about our products.

“ We replaced two ratchet tie-downs with 4 of the cargobuckle. These with the retracts are what we needed to hold down our UTV that is used as a brush fire truck. With the weight and size of the UTV and the type of rough roads (if there is one) just having the two straps was a little thin. With a strap on each corner and the auto retract nothing gets hung up and if one lets go you still have 3 left. *Andes FD* ”

“ This is a super simple product that makes launching and recovering your boat a snap! *Captain John* ”

“ There are a lot of tie downs for the trailer but these are so convenient I would never go back to the “standard straps”. Well made, the boat is very secure, simple to operate, and a child could install; you can't go wrong buying these. *Capt. Tom Marks* ”

BoatBuckle & CargoBuckle have been CAPE Tested so you can Secure with Confidence
