IMMI Hiring Dozens Full-Time to Meet High Demand for Seat Belts on School Buses

July 17, 2017

(Westfield, Indiana) – IMMI, a global leader in the innovation, testing, and manufacturing of advanced safety systems, announced today they are hiring 55 full-time manufacturing team members to meet strong demand across the nation for their SafeGuard lap-shoulder seat belts for school buses.

“More than ever, districts and states are making the decision to improve protection for their students on the school bus by adding seat belts,” said Larry Gray, IMMI CEO. “Seat belts reduce injuries, save lives, and on a school bus, they have the added benefit of improving behavior and reducing bullying. As more and more districts and states discover the benefits, demand for our SafeGuard lap-shoulder belts continues to grow. We need to grow our team to keep up with that demand.”

IMMI has been voted a Healthiest Employer in Indiana for the past two years and provides excellent benefits including medical and dental coverage as well as an on-site clinic for team members and their families. They are hiring for both first and second shift openings. Anyone interested in applying is encouraged to visit imminent.com/careers for more information.

IMMI is an equal opportunity employer: Male/Female/Veteran/Disability

About IMMI

IMMI®, based in Westfield, Indiana, is the leader in the design, testing and manufacturing of advanced safety systems.
