The Most Trusted Leader In Safety Worldwide

When it comes to the youngest among us, IMMI® believes safety begins on day one.

IMMI is the pioneer in child seat safety. We have designed and manufactured child safety products used by more than 60 million worldwide. Our passion to keep children safer while on the road inspired IMMI products like the 5-point harness system, the 1Adjust®, Mini-Connector, and MiniLATCH, which are used by leading child seat manufacturers around the world. So the next time you secure your child into a child seat, know that IMMI is holding on tight to what matters most.

Leading the Way

IMMI's advanced restraint systems and safety components are engineered to make car seats less complicated for parents to use. Below are just a few of the products that IMMI offers:

Buckles

IMMI child seat buckles offer the latest in buckle technology and are designed to withstand the forces imposed by today's child car seat. Our buckles meet specifications for the US (FMVSS213), EU (ECE R-44), AU (AS1754), and Canada (CMVSS 213).

LATCH Attachments

Combining strength and user-friendliness, the IMMI line of LATCH attachments makes car seat installation and removal easy. This includes a range of snap hook styles, ISOFIX anchorages that meet European safety standards, and Mini-Connectors which reduce misuse and help manufacturers achieve NHTSA Ease of Use ratings.

Adjusters

IMMI offers a variety of adjusters to fit numerous restraint configurations and web sizes, including the Alok®.

Testing Services

IMMI is the home of an award winning, one-of-a-kind crash-test facility, CAPE® (Center for Advanced Product Evaluation), which brings together advanced technology and specialized engineering expertise to provide customers with analytical information to support their most complex decisions. CAPE has conducted more safety tests on child restraints than any other test facility in the world.
