Designed by fishermen for fishermen.

RodBuckle Retractable Rod Hold-Down System by IMMI® is the most attractive and functional rod hold-down on the market for deck style fishing boats. The self-retracting polyester strap extends a full 24 inches and securely locks into position on the deck. The PVC extrusion coated strap grips rods and resists hook penetration. When not in use, it neatly retracts out of the way. Easy installation with mounting template included.

As the Industry Leader,
We Drive Safety.

What sets us apart:

Until CAPE®, the Center for Advanced Product Evaluation, stepped in, very little crash testing had been done for the UTV market. They set out to change that and they succeeded. CAPE has crashed, smashed, and rolled a number of UTVs to test everything from vehicle integrity to harness and seat belt safety. Whether you use a UTV to play hard or work hard, CAPE is working to make them safer.

IMMI reminds you to always buckle up.
